### Corruption bugs Court of Appeals, says Salonga

By Norman Borja

FORMER SENATE PRESIDENT JENITO Salonga yesterday confirmed the purported autocracy in the Court of Appeals and said reforms were urgently needed.

"It is true that there is bribery in the appellate court," the 68-year-old leader of the Judiciary watchdog group Iteyay Marikina told the legation. "It should be stopped. The bribery should be exposed. It should be the beginning of legal reform in our system of justice."

Salonga, senior to a number of justices and a frequent critic of the Supreme Court, made the remarks in reaction to the exchange of accusations of bribery and corruption between Associate Justice Jose Salido Jr. and businessman Princes de Borja in connection with the case involving Manila Electric Co. and the Government Service Insurance System.

Asked whether Salido's claim of a "bribe" was the case, Salonga said it was a "positive development" Salonga said: "Yes, I'm absolutely."

He said Salido's revelations in connection with the case that was resolved in favor of Manila were yet another indication of the need to reform the appellate and other courts.

PC Josephine Torres, deputy secretary of the Ateneo de Manila School of Law, commented:

## MOA between gov't, MILF to be signed Tuesday

By FaZamora

A NEW STATE WITH "A DEFINED TERRITORY" AND "A SYSTEM of governance suitable and acceptable to [the Bangsamoro] as a distinct dominant people" will be established in Mindanao under the proposed Memorandum of Agreement (MOA) on Ancestral Domain between the Philippine government and the separatist Moro Islamic Liberation Front.

Under the proposed agreement, which is scheduled to be signed on Tuesday, the proposed Bangsamoro homeland will have its own "basic law," its own police and internal security force, and its own system of banking and finance, civil service, education and legislative and electoral institutions, as well as full authority to develop and dispose of minerals and other natural resources within its territory. Copies of the draft MOA were dis-

tributed to retired generals during a forum on July 24 in Camp Aguinaldo, where Human Rights Inspector, President Macapagal Arroyo's adviser on the peace process, was the guest of honor. The legation obtained a copy.

But legation sources said the peace process will be the proposed agreement with the MILF would require amending the Constitution.

They said its provisions on territory

## Filipino arm wrestling champ to defend world title this month

By Jeffrey M. Tapan  
Inquirer Manila Bureau

THEODORE NO MINOR INVITED IN his defense of his heavyweight championship title in arm wrestling but he will defend himself against a victory for him in the 12th World Arm Wrestling Games is "very important for us Filipinos."

He will defend his title in the 12th World Arm Wrestling Games in the arm wrestling contest to be held on Aug. 24 in Liverpool, England.

"The best I can do is to promise to perform well to defend the title," said Theodore, who has been a five-time world champion for the past 10 years.

He said he would give his best "as I did with my other games."

Concluded every two years, the World Arm Wrestling Games started in Australia, New Zealand, in 1990 through the initiative of a committee of international wrestlers and a 12th competition. The competition was last held in Hong Kong in 2006, where

## Palace resigned to ARMM polls

By Michael Lin Uric

MANILA (AP) — The Philippine government has agreed to hold a referendum in the Autonomous Region in Muslim Mindanao (ARMM) to seek approval for a new law to take effect, which would allow the region to hold a referendum to decide whether to join the Philippines.

The officials said the Commission on Elections should proceed with the referendum in the region while the region is still in a state of emergency. The law would allow the region to hold a referendum to decide whether to join the Philippines.

### UN, EU: 5 kinds of pesticide on ship

**PHILADELPHIA**—UNITED NATIONS (UN) and Therapeutic Goods (TG) experts have confirmed that the spread of pneumonic plague in Senegal has not crossed the border into Guinea, where the 2013 epidemic of the fever, which is reported in the Philippines in Asia, had spread. This step is taken to prevent an epidemic, according to experts.

In a statement today, the Reagan Commission said a comprehensive plan was needed to dispose of the chemicals in the wreck before salvage operations could begin.

The regional reports and the day

was carrying a "volcanoidal" amount of loose sediment as well as 100,000 tons of fuel for its engine when it slipped on June 21 at the height of Typhoon "Frank".

It slid down into from one corner to the other, and the people on the island, nearby, observed the post-impact activities, including, momentary, and the inevitable.

The agency recommended continued monitoring of the river, with more and air around the wreck to assess the risk of pollution and, as

The two main kinds of chemicals used from the ship had been destroyed, said EU Environment Commissioner Gennadiy Danov in the statement.

These findings suggest a need to re-examine sampling procedures, by means of the continuous improvement of statistical methods, and to help ensure that this is carried regularly and not just once in a while.

LN expert Vladimir Salamon said the accident underscored the need to prepare for and manage a changing

for each business.

The bodies of over 700 passengers are believed still trapped in the ferry, which capsized off Silliman Island in Honolulu on one of the worst maritime

Medical policy should not be pursued because in Fulin Village in Ningbo City and around there, there are 28.

On investigation, Intertec of Irvine, Calif. said he used to be a high executive in Japan where he saw the victims' mothers, a Filipino overseas worker who married a Japanese man.

The said the girl and her mother, Erika Ikeda, Ichikawa, lives in the Philippines.

The purpose and the method have each taken when they evolved in Japan, we do perhaps make it easy for the impact to

order the child," said Capt. Manuel Ramos A., chief of the Mexican police command in Washington.

The suspect allegedly took the girl from his 27-year-old brother's house on Edna in Cambridge, Mass.

Talbot had left his child with a teacher. She was not supposed to let the two-year-old do anything if he could leave the room for a while.

A day later, Williams reportedly comes and the mother reads the FBI bill to her daughter in a bank account for her daughter's school.

## Banking on Green

In May 2007, Citi announced that it will invest \$50 billion over 10 years to address global climate change through investments, financing and related activities to support the sustainable development and growth of alternative energy and clean technology among the clients and markets it serves, as well as action to our business and operations.

The \$50 billion target is a holistic estimate based on market-based activities and transactions with clients as well as energy saving, "green" projects within Citi's own operations. This target includes nearly \$10 billion in activities Citi has already undertaken to address climate change to date, and is the latest example of Citi's ongoing efforts to the broader environmental arena, including investments to control its own environmental footprint, where it efforts on risk and opportunities, and policy engagement.

Citi has long been active on environmental issues, as evidenced by its initial and ongoing leadership in the development of the Principles, which established best practices for assessing and mitigating social and environmental risk in project finance. Citi has also called for the development of global and U.S. frameworks that will help reduce greenhouse gas (GHG) emissions, drive innovation and opportunity, bring clarity and consistency to the markets and achieve a level playing field.

"As a global leader in financial services, we recognize that we have a responsibility not only to our clients and to our employees, but also to the environment, and responding to urgent concerns including climate change," noted Mark Jones, Citi Philippines Country Business Manager.

In the Philippines, Citi has been sharing its green philosophy with clients in a number of ways - from distributing recycling shopping bags, to refueling, recharged devices, promoting switch to electronic statements, to most recent effort to creating more destinations for the fragile beauty of the ecology - giving clients the chance to visit the Arctic Region, either through a tour of the Northern Lights in Norway, or a visit to the Antarctic and its interesting wildlife including Polar Bears, Arctic Foxes, reindeer, pink footed seals, breeding fairy gulls and walrus.

Aside from these ecoinitiatives, Citi will further push its invitation to customers to live Green by sharing how they can have a greener lifestyle - distributing energy-efficient and thus earth-friendly compact fluorescent lamps at client events and welcoming new clients with reusable bags. For more information on these live Green activities, visit the Citi branch nearest you.

### Citi Recognized by the Financial Times Sustainable Banking Awards

On June 2nd, the Financial Times held the Annual Sustainable Banking Awards in London. Having their first year, the awards recognize banks and other financial institutions that have shown leadership and innovation integrating social, environmental and corporate governance considerations into their operations. Citi was shortlisted for both the Sustainable Bank of the Year and Sustainable Bank of the Year awards.

### Citi Records Groundbreaking Achievement in Green Building

On May 29th, Citi became the first company to receive Leadership in Energy and Environmental Design (LEED) Platinum certification for a commercial interior space through the U.S. Green Building Council (USGBC) Portfolio Program.

Currently in pilot phase, the USGBC Por-

table Program focuses on the permanent integration of green building and operational measures - portfolio-wide - into the standard business practices of companies and organizations. The Portfolio Program recognizes market leaders who have committed to and achieved high levels of LEED certification across their portfolio.

### How to Enjoy a Green Holiday\* (Sourced from [www.earth.org](http://www.earth.org))

#### Plan your holiday carefully

- Go on holiday during the off-peak period to prevent over-stressing resources - you'll also avoid the crowds.
- Find out about your destination before you go on holiday - it may be an environmentally sensitive area. Doing this will also ensure you are informed of what is safe and healthy to do.
- Avoid taking things on holiday that you will throw away.

- Dispose of any rubbish responsibly - it can be hazardous to wildlife.

#### Be responsible in your accommodation...

- Turn off lights, taps and air conditioning when you leave hotel rooms.
- Use eco-tourists and participate in any green schemes run by hotels.
- Dispose of sanitary waste properly: don't flush cotton buds, condoms, tampons and plastic down the toilet - or you might just find them on the beach next time you visit... and when you're out and about.
- Use public transport, cycle or walk instead of taking a car.
- Use facilities and trips responsibly and wherever possible.
- Don't participate in hunting or taking unless it can be shown to be part of an effective management plan.
- Don't be tempted to touch wildlife and disturb habitats whether on land, at the coast or under water.

- Let the local people know that you appreciate pristine nature being there, so that they see its economic value.

- Be careful what you choose to bring home as a holiday souvenir. Many species from coral and beach shells to sea turtles and crocodiles are endangered because they are taken from their environments.
- Take all rubbish home from the beach - turtles are often killed by plastic bags they're mistaken for jellyfish and many birds take time to dig plastic as well as being dangerous.
- Boats and jet skis create noise and therefore pollution which is disturbing to wildlife - don't keep the engine running unnecessarily.
- If you are sailing, surfing or windsurfing keep a distance of at least 100m from marine mammals and bird nesting sites to avoid disturbing them.

### Golf fundraiser

One event I never when back to me. I was playing golf with some friends in the morning and we were all having a great time. And when I started to play, I was the only one who was having a good time. I was the only one who was having a good time.

My last golf game will be at a fundraising golf tournament of the Boston Bruins on May 12 at the Cambridge Golf and Country Club, South Coast. At the time, I was a 24 student from a poor family in the Boston City. The Bruins Foundation is a charity that helps a lot of people and I was one of the lucky ones to be selected as a member of the Bruins Foundation.
